[REDACTED] He stated that in view of the Federal and State Parole supervision, he would certainly not withhold information regarding Subjects if their whereabouts were known to him. He stated that if he received any information regarding any of these Subjects, he would immediately notify the Philadelphia Division.

[REDACTED] b7c

Tampa communication of December 26, 1963, furnished the following information:

Numerous negative attempts have been made to contact [REDACTED] in the area of Sun City (Buckin) Florida; however, information has been developed that [REDACTED] is now allegedly residing in Palmetto, Florida, address unknown. [REDACTED] b7c

Richmond communication of December 10, 1963, furnished the following information:

[REDACTED] b7c b7D

These photographs represented all prisoners fitting the description of the prisoner who allegedly gave [REDACTED] information pertaining to JOHN ANGLIN. [REDACTED] could not identify these photographs.

Newark communication of December 5, 1963, furnished the following information:

[REDACTED] telephonically contacted SA [REDACTED] of the Camden Resident Agency. He requested that his identity not be made known to individuals contacted during the course of this investigation. He furnished the following information:

[REDACTED] on December 3, 1963, was observing FBI posters at the Collingswood, New Jersey Police Department, when he recognized the IO #3582, CLARENCE ANGLIN - Fugitive, as possibly being identical to an individual he talked to about a month ago. [REDACTED] b7c b7D

[REDACTED] talked to [REDACTED] late twenties or early thirties, about 5'9", 175 pounds, medium build, who is employed at Bexy's Dog Kennel. There is no house at the dog kennel site. [REDACTED] resides in the dog kennel building. Tampa communication of January 31, 1964, reflected the following information:

On January 13, 1964 "Tampa Tribune" newspaper carried article concerning electrocution of ALFRED RAY ANGLIN, brother of ANGLIN subjects, who was convicted with them for bank robbery. According to article, ALFRED was killed when he touched high voltage wire lining a window at Kilby Penitentiary, Montgomery, Alabama, when he tried to crawl through window to escape, January 11, 1964. The article stated that ANGLIN had wrapped rubber hose around the wires of the window, but the insulation was insufficient.

Immediate contact with [REDACTED] and [REDACTED] an acquaintance of the ANGLINS, determined that the funeral was to be held at Ruskin, January 16, 1964, at the funeral home of Lewers and Shannon.

They advised they were upset and it was obvious that they were emotionally disturbed over the recent death of ALFRED ANGLIN, and stated they had been contacted by a parole officer of the State of Florida, concerning the possible parole of ALFRED ANGLIN, who had been transferred from the Federal Penitentiary at Atlanta, Georgia, to Kilby Prison approximately September 18, 1963, to serve his state prison sentence of 25 years, while still serving the remainder of his Federal sentence concurrently. His mandatory release date was October 5, 1967, but he was to be under Federal supervision until August 13, 1972.

[REDACTED] advised that the last contact they had with ALFRED ANGLIN was a letter written December 25, 1963, in which he was cheerful and gave no indication of being restless. They said he was visited by other relatives, the last time being the Sunday before Christmas, and ALFRED indicated to them he would be eligible for parole soon, and he liked Kilby prison, as he felt "free" after Atlanta Penitentiary. They stated that he wrote another letter to a sister which was on blue paper, and was received January 1, 1964 and [REDACTED] indicated they believed that this blue paper could mean he was in solitary confinement, as [REDACTED] had written on different colored paper when being punished in prison.

[REDACTED] continued that the family was notified at 11:30 PM, Saturday night, January 11, 1964, that ALFRED had been accidentally electrocuted at 8:30 PM that day while trying to escape from Kilby, and the family paid \$283.00 to have the body returned to Ruskin for funeral services, and they stated they were further upset because no death certificate was received with the body, and although several attempts have been made by the funeral director to obtain a death certificate, it has not been forwarded by prison officials. [REDACTED] advised that a brother and sister of the ANGLINS had telephonically contacted Prison Chaplain [REDACTED] who allegedly stated that ALFRED and another prisoner were on top of a prison building, when ALFRED became tangled in electric wire; that newspapers mentioned a window lined with high voltage wires, and further the family had also heard that the TV programs in Georgia had stated that ALFRED was sawing through the prison wall and had sawed through high voltage wires.

[REDACTED] b7C
[REDACTED] pointed out that in view of the above, they were not satisfied with the information they received. They said that they were upset because of the lack of knowledge of the fate of [REDACTED] CLARENCE and JOHN, in their attempted escape from Alcatraz, and this recent tragedy of [REDACTED] ALFRED. They also stated that they had heard through other immediate members of the family, that the funeral director at Ruskin had stated the body was in bad shape and had "stripes" across his back and this caused them to wonder how ALFRED died. b7C b7D

[REDACTED] of Lewers and Shannon Funeral Home, Ruskin, on January 27, 1964, advised SAs [REDACTED] and [REDACTED] that the body of ALFRED ANGLIN showed no indication of mistreatment, but had two small burned areas on the upper back and burned areas above each eye and bridge of nose, possibly from electric current going through eyeglasses. He stated that although glasses were not sent to him with the body, ALFRED ANGLIN allegedly wore glasses all the time. He said that ALFRED had an abrasion on the right cheek and the lower right abdomen, possibly caused by a scrape against concrete, and the only complaint he had concerning the condition of the body was a complaint over inferior embalming and restorative work by the funeral parlor in Montgomery, Alabama, which he mentioned to relatives, and made no open complaint. b7C b7D

[REDACTED] stated that he had called the funeral director in Montgomery, the White Chapel Funeral Home, who advised that death certificates were made up at Kilby Prison once a month, and that it would be at least two or three weeks before one could be sent to Ruskin, Florida. b7C b7D

During period January 13, 1964 through January 27, 1964, the following individuals who have indicated a desire to assist the Bureau, and are apparently cooperative in all respects, were contacted and no information was developed regarding any subjects of this investigation. No information was received by relatives during past Christmas-New Year season, which gave rise to any new hope that the ANGLIN subjects might be alive:

ALFRED RAY ANGLIN
CIVIL RIGHTS

b7c, b7D

[REDACTED] ALFRED RAY ANGLIN, a convict serving a sentence at Kilby Penitentiary, Montgomery, Alabama, who was accidentally electrocuted on January 11, 1964, at Kilby Prison allegedly during an attempt to escape, advised they were upset, and it was obvious that they were emotionally disturbed, over the recent death of ALFRED ANGLIN and stated they had been contacted by a parole officer of the State of Florida concerning the possible parole of ALFRED ANGLIN, who had been transferred from the Federal Penitentiary at Atlanta, Georgia, to Kilby Prison approximately September 18, 1963, to serve his state prison sentence of 25 years, while still serving the remainder of his Federal sentence for bank robbery concurrently. His mandatory release date was October 5, 1967, but he was to be under Federal supervision until August 13, 1972.

[REDACTED] advised that the last contact they had with ALFRED ANGLIN was a letter written December 25, 1963, in which he was cheerful and gave no indication of being restless. They said he was visited by other relatives, the last time being the Sunday before Christmas, and ALFRED indicated to them he would be eligible for parole soon, and he liked Kilby Prison, as he felt "free" after Atlanta Penitentiary. attempts have been made by the funeral director to obtain a death certificate. it has not been forwarded by prison officials. [REDACTED] advised that a brother and sister of the ANGLINS had telephonically contacted Prison Chaplain [REDACTED] who allegedly stated that ALFRED and another prisoner were on top of a prison building when ALFRED became tangled in electric wire; that newspapers mentioned a window lined with high voltage wires, and no mention was made of another prisoner being with ALFRED; and further the family had also heard that the TV programs in Georgia had stated that ALFRED was sawing through the prison wall and had sawed through high voltage wires. b7c b7D

[REDACTED] pointed out that in view of the above, they were not satisfied with the information they received. They said that they were upset because of the lack of knowledge of the fate of [REDACTED] CLARENCE and JOHN, in their attempted escape from Alcatraz, and this recent tragedy of [REDACTED] ALFRED. They also stated that they had heard through other immediate members of the family, that the funeral director at Ruskin had stated the body was in bad shape and had "stripes" across his back and this caused them to wonder how ALFRED died. b7c b7D

[REDACTED] of Lowers and Shannon Funeral Home Ruskin, on January 27, 1964, advised that the body of ALFRED ANGLIN showed no indication of mistreatment but had two small burned areas on the upper back and burned areas above each eye and bridge of nose, possibly from electric current going through eyeglasses. He stated that although glasses were not sent to him with the body, ALFRED ANGLIN allegedly wore glasses all the time. He said that ALFRED had an abrasion on the right cheek and the right lower abdomen, possibly caused by a scrape against concrete and the only complaint he had concerning the condition of the body was a complaint over inferior embalming and restorative work by the funeral parlor in Montgomery, Alabama, which he mentioned to relatives and made no open complaint. b7c b7D

On February 14, 1964, [REDACTED] Warden, Kilby Prison, Montgomery, Alabama, advised a letter was b7c b7D

ALFRED RAY ANGLIN

received by Prison officials from [REDACTED] of ALFRED RAY ANGLIN, asking for certain details in connection with the death of ANGLIN. By letter dated January 7, 1964, [REDACTED] Deputy Warden, Kilby Prison, wrote [REDACTED]

[REDACTED] was a letter answering all the questions that [REDACTED] had asked including whether or not ANGLIN had a parole set before his death, if any money had been left by ANGLIN and if [REDACTED] could correspond with her. [REDACTED] was advised that there had been no paroles set up for ANGLIN, that all the money he had had been sent to his mother. She was advised that as she was not one of his family, she could not correspond with [REDACTED] prisoner at Kilby Prison.

In answer to a written request by [REDACTED] Ruskin, Florida, [REDACTED] wrote a letter to them on February 3, 1964, which answered all of the questions set forth by them in their letter of January 30, 1964.

Concerning the attempt to escape and death of ALFRED RAY ANGLIN, Prison #8661, [REDACTED] reported:

On the night of January 11, 1964, at approximately 6:30 p.m., ANGLIN, along with inmate [REDACTED] gained entrance to and secluded themselves in the institution's clothing room on the second floor at Kilby Prison. At approximately 8:00 p.m. that date, the indicator in the lobby at the prison indicated a ground on the high tension security wires surrounding the compound. Investigation revealed inmate [REDACTED] attempting to attract the attention of a guard on that floor. When the guard approached, [REDACTED] told him that ANGLIN had come in contact with the electric wire outside the window. Examination revealed that two window bars had been sawed at the bottom and were bent upward, which had been done by a piece of 1½" water pipe as a bender. A protective screen on the outside of the bars was also sawed through. ANGLIN was completely through the window with the exception of his feet. The inmate's face and body were lying on the flat roof of the Administration Offices and his feet were still in the hole in the window when he came in contact with the high voltage security wire, thereby electrocuting himself.

A search was made of the person of [REDACTED] and ANGLIN and the area surrounding the scene. A hack saw in a crudely made frame, a pair of wire pliers, two sets of jumper wires designed for jumping the ignition of automobiles, a forged Alabama Driver's License and approximately \$16.00 in currency was found. Personal photographs were packaged in a water-

ALFRED RAY ANGLIN

proof container and a list of addresses also starting locally and covering several states.

It appeared that ANGLIN's clothing had become entangled on a portion of the window. In bending and twisting in an attempt to release his clothing, he had raised up too high coming in contact with the wire at a point about the middle of his back, thus causing his death.

Following his death, the coroner at Montgomery, Alabama, was immediately notified of it. An examination was made by the coroner and a death certificate was filled out at the hospital, Kilby Prison, which certificate was sent to the coroner for his signature. As it is normally the case, the death certificate was forwarded by the coroner to Alabama Bureau of Vital Statistics, Montgomery, Alabama. A record of the death was then filed with Alabama Bureau of Vital Statistics and is on record. A death certificate is not in possession of the Kilby Prison Officials and would not in this case or any case be forwarded to the family of ANGLIN and if the family of ANGLIN desire a certificate of death, it was felt they could obtain one by contact with Alabama Bureau of Vital Statistics, Department of Health, Montgomery, Alabama.

Subsequent contacts with relatives of the late ALFRED RAY ANGLIN at Ruskin, Florida, indicates his brothers and sisters many of whom reside with or near the ANGLIN parents, have accepted as a probable fact that their brothers JOHN WILLIAM and CLARENCE perished during their attempted escape from Alcatraz and the fact that ALFRED RAY ANGLIN attempted to escape from Kilby Prison and paid for this with his life. They advised the main concern of the family following ALFRED's electrocution was to obtain all his property held by Kilby Prison and a death certificate so the family could collect insurance for payment of his funeral expenses, however, their elderly parents, especially the father, had suffered so much in the mystery of losing JOHN WILLIAM and CLARENCE that they doubted the parents will ever accept or understand the truth surrounding the death of ALFRED.

it is noted that this interview was conducted at the penitentiary on a pretext basis to protect him at his request. [REDACTED] advised he would be willing to take a polygraph examination concerning any of the information he furnished. He did not feel such an examination would prove anything in view of the fact he did not have any definite information and was only basing his comments on his own feelings and the comments made by Escapees' brother, ALFRED ANGLIN. He stated he would only take the polygraph examination if such an examination was given away from the penitentiary (which would be necessary in any event as such examinations are not allowed at the penitentiary) and if a pretext was utilized in removing him from the institution for such an examination. b7c

Information is set forth in this report as obtained from [REDACTED] at Washington, D. C., wherein he allegedly visited with the Escapees in Michigan during December, 1963. Subsequent information obtained from him indicates that this information was completely untrue. His furnishing of false information was presented to Assistant United States Attorney ALFRED HANTMAN at Washington, D. DETAILS:AT RUBONIA, FLORIDA b7C
[REDACTED] b7D

[REDACTED] b7C
[REDACTED] said he was interviewed at Ruskin, Florida, b7C b7D
concerning MORRIS and the ANGLIN brothers about one year
ago, and he has received no additional information concerning
them since that time.

He said he knew the ANGLIN brothers at Ruskin for
about 12 or 14 years. However, he knew JOHN WILLIAM ANGLIN
best and spent a lot of time with him at the local skating
rink. He said he did not know CLARENCE very well, but he knew
of him. He added that there are three brothers still at Ruskin-- b7C b7D
[REDACTED] and one other. Also the parents still live at Ruskin.
He said he saw the brother, whose name he cannot recall, in Ruskin
about one month ago. JOHN and CLARENCE were mentioned, and the
brother said no one knew where they were, if they were dead or
alive.

[REDACTED] said he will gladly cooperate since he understands b7C b7D
the provisions of the Harboring Statute and does not want to
become involved. He will furnish any information he receives to
the FBI.

Jacksonville communication of February 12, 1964,
set forth the following information:

[REDACTED] b7C b7D
[REDACTED] b7C b7D
[REDACTED] b7C b7D

██████████ b7C
██████████ said that he contacted ██████████ at the United States Penitentiary, Atlanta, Georgia, and ██████████ stated that the ANGLIN brothers along with FRANK LEE MORRIS, all of whom escaped from Alcatraz, are allegedly still alive. ██████████ claimed to ██████████ that he knew of the contemplated escape of the ANGLIN brothers four months before the actual escape took place. Also that he believes that ██████████ aided and abetted the ANGLIN brothers in their escape. ██████████ claimed to ██████████ that he had known these Subjects for a period of 12 years and when questioned as to where he was getting his information, ██████████ claimed that ██████████

██████████ b7C b7D
██████████ said that he informed ██████████ that it is generally felt by the law enforcement agencies that the ANGLIN brothers and MORRIS are deceased. To this ██████████ claimed that if these three men are dead, "How could they have robbed the bank at Jay, Florida?" ██████████ claimed that he knew that these men, that is the ANGLIN brothers and MORRIS, had something to do with the bank robbery at Jay, Florida.

██████████ b7C b7D
██████████ said that ██████████ then indicated to him that he comes up for parole within a year and that if he is guaranteed parole, he will set up the ANGLIN brothers and MORRIS in order that they can be taken into custody. He then stated that he would prove himself before he gets parole if the FBI wanted him to. He claimed that he could be transferred from Atlanta under the pretense of going to another prison and while ostensibly under transfer from one prison to another, he could set them up for arrest. ██████████ went on to claim to ██████████ that he knows that the ANGLIN brothers and MORRIS are living in Mexico deep in the hills, and that he has a connection whereby he could entice them back into the United States to pull a job with him. ██████████ then informed ██████████ that he would pass his information along to the FBI and ██████████ then stated, "I will not see or talk to any agent unless I am guaranteed a parole either before or after the arrest of the three fugitives." ██████████ claimed that he is fearful for his safety and does not wish any FBI agents contacting him at the prison because it is his feeling that the guards spread everything that goes on among the other prisoners.

[REDACTED] b7C
[REDACTED] said that it is his observation from his interview with [REDACTED] that [REDACTED] is trying to set himself up in an effort to make some sort of a deal whereby he could gain parole at an earlier date than he normally would be eligible. b7C b7D

[REDACTED] related that he impressed upon [REDACTED] the fact that it would be absolutely essential for him to discuss his information with FBI agents, but this [REDACTED] steadfastly and consistently refused to do.

[REDACTED] said that he pressed [REDACTED] for additional information concerning this matter, but [REDACTED] apparently was unable or unwilling to discuss the matter further.

[REDACTED] said that he had recalled reading in the local press the fact that ALFRED RAY ANGLIN, brother of CLARENCE and JOHN ANGLIN, had been killed at Kilby Prison in Montgomery, Alabama, while attempting to escape on January 12, 1964.

[REDACTED] does not anticipate any further contacts with [REDACTED]

On February 28, 1964, a review of the records of the United States Penitentiary (USP A) concerning [REDACTED] and ALFRED RAY ANGLIN, Number 79625 A, reflected they were cell mates in "B" Cellhouse, 8-12, from December 12, 1962, to September 10, 1963. b7C

[REDACTED] was interviewed at the United States Penitentiary, Atlanta. At the inception of the interview, [REDACTED] requested that his identity under no circumstances be made known to any outside individual during the conducting of investigation since he believed he would be a "dead man" if it was found out that he was furnishing information to the FBI. b7C b2D

[REDACTED] advised he had known ALFRED RAY ANGLIN, Subjects JOHN WILLIAM ANGLIN, CLARENCE ANGLIN, and FRANK LEE MORRIS for about 15 years, and had "built time" with all of them at one time or

another. He explained that he had "built time" with them at either the Florida State Prison, Raiford, Florida, or the Georgia State Prison, Reidsville, Georgia, and on some occasions both places.

When he was committed to the USP-A on [REDACTED] he resumed his friendship with ALFRED ANGLIN, and he felt, was taken into his confidence. Shortly after his arrival, ANGLIN informed him that his brothers, then confined at the USP, Alcatraz, were planning an escape in the near future, but he did not feel it could be done and did not place much stock in this prediction until it happened about two months later.

Following the escape, when the newspapers were reporting the Subjects were presumed dead, ANGLIN was very morose and gloomy, but shortly thereafter, he received a visit from another brother, known as [REDACTED] and from that point on ANGLIN was his normal, cheery self again.

Subsequent to this, ANGLIN commented to him on several occasions that the Subjects were alive and well, and in fact he was certain they had "hit the bank of Jay," Jay, Florida, which was "hit" about one year ago. He stated ANGLIN never mentioned where the Subjects could be located, but it was his own impression, based on his own knowledge of the Subjects, that they are probably in Mexico. He stated he had nothing definite to back up this impression of his, but it was his opinion that the Subjects had made good their escape.

He did state that ANGLIN had informed him that [REDACTED] who was then confined at Alcatraz, fixed the Subjects up with a "contract" in California, and that this "contract" had a small boat.

[REDACTED] advised that if he was to start looking for the Subjects, he would start looking in the vicinity of Guadalajara, Mexico, in that Subject MORRIS, who speaks fluent Spanish, spent a great deal of time in that area from 1953 to 1957. He stated MORRIS has a lot of contacts in that area, and that if the Subjects were alive, as he believes, MORRIS would be "calling the shots", and in all probability would be "holed up" in that area. He explained that the Subjects were all excellent woodsmen and would think nothing of "holing up" in the Guadalajara Mountain Range for years.

[REDACTED] b7C
[REDACTED] b7D
[REDACTED] furnished the name of [REDACTED] who now resides in either Guadalajara or Monterey, Mexico, as a close friend of MORRIS. He stated [REDACTED] would help the Subjects and/or at least would know if they were in the area, but would not cooperate with any law enforcement agency. [REDACTED]

He also commented that when ALFRED ANGLIN last escaped from State custody, and was out for five years, he hid out in Haynes, Florida, but he had no reason to believe the Subjects might also go to that area.

He readily admitted he was furnishing this information with a selfish motive, in that he was soon to come up for parole consideration, and he would need all the help he could get. He acknowledged the fact the FBI would be unable to intercede for him in obtaining this parole.

He continued that he really did not have much information to furnish at this time, and he realized it, but he was furnishing all he had. He stated that when he first mentioned this to his mother, a number of months ago, and prior to the death of ALFRED ANGLIN, he felt he could obtain information concerning the Subjects. However, with the death of ALFRED ANGLIN, his source has also died out, and he no longer felt he would be able to learn any information concerning the Subjects from the "inside." In the event he was granted a parole, he stated he felt he would be in a better position to obtain the right answers, but even then he could not guarantee anything because he has been away from his contacts a long time.

[REDACTED] b7C
[REDACTED] b7D
[REDACTED] a former associate of JOHN WILLIAM ANGLIN and CLARENCE ANGLIN, was located at the Fulton County Jail, where he is incarcerated under the name of [REDACTED]. [REDACTED] advised he had not received any information concerning the ANGLINS since he was last interviewed, and he had no reason to suspect they were still alive.

furnished the following information:

[redacted] advised that JOHN and CLARENCE ANGLIN escaped from the United States Penitentiary, Alcatraz Island, California, on June 19, 1962. He said he was friendly with the ANGLIN brothers, had helped them in a bank robbery in Alabama in 1958, and later met them at the Lewisburg Penitentiary. He visited the ANGLIN brothers December 25, 1963, and stayed with them two weeks. The ANGLIN brothers were reportedly residing at 1617 Seaview Avenue, Benton Harbor, Michigan. They were reportedly residing with two other unknown males on the second floor of a three story building wherein there was a fishing equipment company on the first floor as a front. CLARENCE ANGLIN reportedly had dyed his hair black. ANGLIN brothers were driving a 1963 cream convertible Thunderbird automobile. They were reportedly in good financial condition, did not work, and came outside usually in the evening but never in the morning. This source had no information relative to the males residing with the ANGLIN brothers with the exception that one may be known as [redacted] CLARENCE ANGLIN was going under the name of JAMES SWATSIE (phonetic), and JOHN ANGLIN was using the name JOHN SWATSIE (phonetic). b7C b7D

The current Benton Harbor and Benton Township, Michigan city directory, as well as the area street guide, list no Sea View Avenue. The Benton Harbor Police Department and Benton Township Police Department advised there is no Sea View Avenue in their respective areas.

No one named SWATSIE or with a similar sounding name is listed in the city and township directory or telephone directory for the Benton Harbor areas. [redacted] b7D

Fishing equipment places listed in the yellow pages and city directory for the Benton Harbor area are all established, well-known concerns, and the location of none answers the description given by [redacted] b7C

Washington Field communication of March 11, 1964, set forth the following information:

[REDACTED] was located and reinterviewed at Washington, D. C., March 10, 1964. [REDACTED] admitted the information previously furnished by him regarding present whereabouts of Subjects was untrue. [REDACTED] stated he did not visit Subjects in Benton Harbor, Michigan, during December, 1963. He also admitted having no information that Subjects were alive.

[REDACTED] advised he had previously suffered mental problems and received a medical discharge from the United States Navy based on such problems.

Mobile communication of March 17, 1964, furnished the following information:

On February 14, 1964, [REDACTED] Warden, Kilby Prison, Montgomery, Alabama, reported the following to SA [REDACTED]

A letter was received by Prison Officials from [REDACTED] ALFRED RAY ANGLIN, [REDACTED] asking for certain details in connection with the death of ANGLIN. By letter dated January 7, 1964, [REDACTED] Deputy Warden, Kilby Prison, wrote [REDACTED] It was a letter answering all the questions that [REDACTED] had asked including whether or not ANGLIN had a parole set before his death, if any money had been left by ANGLIN and if [REDACTED] could correspond with her. [REDACTED] was advised that there had been no paroles set up for ANGLIN, that all the money he had had been sent to his mother. She was advised that as she was not one of his family, she could not correspond with [REDACTED] prisoner at Kilby Prison.

In answer to a written request by [REDACTED] [REDACTED] wrote a letter to them on February 3, 1964.

Concerning the attempt to escape and death of ALFRED RAY ANGLIN, Prison Number 8661, [REDACTED] reported:

On the night of January 11, 1964, at approximately 6:30 p.m., ANGLIN, along with inmate [REDACTED] gained entrance to and secluded themselves in the institution's clothing room on the second floor at Kilby Prison. At approximately 8:00 p.m., that date, the indicator in the lobby at the prison indicated a ground on the high tension security wires surrounding the compound. Investigation revealed inmate [REDACTED] attempting to attract the attention of a guard on that floor. When the guard approached, [REDACTED] told him that ANGLIN had come in contact with the electric wire outside the window. Examination revealed that two window bars had been sawed at the bottom and were bent upward, which had been done by a piece of one-and-a-half inch water pipe as a bender. A protective screen on the outside of the bars was also sawed through. ANGLIN was completely through the window with the exception of his feet. The inmate's face and body were lying on the flat roof of the Administration Offices, and his feet were still in the hole in the window when he came in contact with the high voltage security wire, thereby electrocuting himself. b7C b7D

A search was made of the person of [REDACTED] and ANGLIN and the area surrounding the scene. A hack saw in a crudely made frame, a pair of wire pliers, two sets of jumper wires designed for jumping the ignition of automobiles, a forged Alabama Driver's License, and approximately \$16.00 in currency was found. Personal photographs were packaged in a water-proof container and a list of addresses also starting locally and covering several states. b7C b7D

It appeared that ANGLIN's clothing had become entangled on a portion of the window. In bending and twisting in an attempt to release his clothing, he had raised up too high coming in contact with the wire at a point about the middle of his back, thus causing his death.

Following his death, the coroner at Montgomery, Alabama, was immediately notified of it. An examination was made by the coroner and a death certificate was filled out at the hospital, Kilby Prison, which certificate was sent to the coroner for his signature. As it is normally the case, the death certificate was forwarded by the coroner to Alabama Bureau of Vital Statistics, Montgomery, Alabama. A record of the death was then filed with the Alabama Bureau of Vital Statistics and is on record. A death

SF 76-2887

certificate is not in possession of the Kilby Prison Officials and would not in this case or any case be forwarded to the family of ANGLIN. If the family of ANGLIN desire a certificate of death, it is felt that they could obtain one by contact with the Alabama Bureau of Vital Statistics, Department of Health, Montgomery, Alabama.

repeated that he is willing to cooperate in any way in furnishing information to family of ANGLIN. The prison officials have done so in the past and will continue to do so.

Bureau communication of April 27, 1964, concerned a document examination of miscellaneous papers submitted by [REDACTED] b7c b7D

The results of that examination reflect that the available known handwriting of CLARENCE ANGLIN, FBI #473 170 2, was not sufficiently comparable with the writings on the miscellaneous papers submitted to permit any detailed comparison. Consequently it could not be definitely determined whether CLARENCE ANGLIN did or did not prepare any of the writings on the papers submitted, however nothing of particular significance was noted during this comparison to indicate the possibility that CLARENCE ANGLIN prepared the writings on the questioned documents.

Bureau communication of April 30, 1964, contained information relative to the latent fingerprint examination conducted concerning the questioned papers and documents submitted by [REDACTED] The latent fingerprints obtained from the questioned documents were determined to be not identical with the fingerprints of CLARENCE ANGLIN. b7c b7D

MEMORANDUM

TO: DIRECTOR, FBI (76-26295)
FROM: SAC, SAN FRANCISCO (76-2887)
SUBJECT: ALCOS

DATE: 6/30/64

(OO: SAN FRANCISCO)

In the early morning of 6/12/64, FRANK LEE MORRIS, JOHN WILLIAM ANGLIN and CLARENCE ANGLIN were discovered missing from their cells at the United States Penitentiary, Alcatraz Island, California. Extensive investigation had been conducted looking towards their location and apprehension. There has been no information developed indicating that these three individuals were successful in reaching the shores of San Francisco Bay through the cold waters surrounding Alcatraz Island. In March, 1963, the United States Penitentiary at Alcatraz Island was discontinued and the inmates transferred to various penitentiaries throughout the United States. With the closing of Alcatraz Penitentiary the last connection of the escapees with the San Francisco territory disappeared since none of them had engaged in criminal activities in this area, nor had they resided or had relatives in this area.

It is noted that the parents of the ANGLIN brothers, together with a multitude of close relatives reside in the Ruskin, Florida, area. In this connection some of their cousins residing in this area had experienced jail sentences with them and if they are alive it is believed that contacts will be had by them with their family or with close relatives residing in that area. It is noted that MORRIS is practically without relatives and has no designated place of residence.

In view of the foregoing it is recommended that the Tampa Office be designated as Office of Origin in this matter so that they might continue to maintain close contact with the members of the ANGLIN family to insure the receipt of any information indicating that the escapees might be alive.

In this regard the Tampa office has been furnished a copy of every San Francisco report and if the Bureau so designates them as Office of Origin they will immediately be furnished a copy of every other report in this matter.

Re San Francisco letter 6/30/64.

The Bureau does not feel that the Tampa Office is in a better position to supervise this case than San Francisco and, therefore, is not approving changing of official origin at this time.

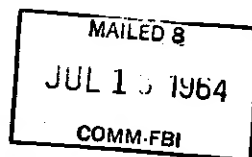

In view of the extensive investigation that has been conducted in this case with all indications being that subjects never made the mainland, San Francisco is authorized to place this case in a pending inactive status for a period of one year. At the end of that time, the case should be made active and the file thoroughly reviewed for the purpose of conducting an investigation to ascertain if subjects have contacted any relatives or associates, etc.

1 - Tampa (76-276)

NOTE: Case involves the escape of John William Anglin, Clarence Anglin, and Frank Lee Morris from Alcatraz on 6/12/62. Since investigation indicates that subjects were unsuccessful in their attempt and probably drowned in San Francisco Bay.

ReSEF to Bureau, 6/30/64.

As indicated in the referenced letter, this case has been vigorously pursued for a period of more than two years, and there has been nothing to indicate that subjects made a successful escape from Alcatraz Penitentiary. A number of offices, including Tampa, have established effective contacts with various relatives of the alleged escapees.

The Bureau is currently considering a request to change responsibility in this case from San Francisco to Tampa. It is Tampa's view that everything possible has already been done; that anything further would very possibly be unwarranted in view of all of the facts.

Tampa, therefore, requests that the Bureau authorize the closing of this case. If the Bureau feels that additional investigation is necessary, Tampa would respectfully request that the Bureau outline what additional phases of investigation would appear to be warranted at this time, in order that the field may be appropriately guided.

One [redacted] who would not furnish his local address or telephone number, contacted the Bureau this date to advise he had just seen the subject. He stated he was driving his truck to his Silver Spring, Maryland, residence and as he passed the intersection of Georgia Avenue and Kennedy Street he observed the subject. He indicated this was about 7:00 a.m., as his call was received at 7:15 a.m., and he noted he had just seen the subject.

When pressed for details [redacted] would not further identify himself. He explained he had known Morris for thirty years as he attended school with him.
